

Criteria No. 7.7

Training on Disaster Risk Reduction and Response Preparedness

Date-13/09/2024

Time-11:00am

Venue- Atal Bihari Vajpayee Govt. College Naura

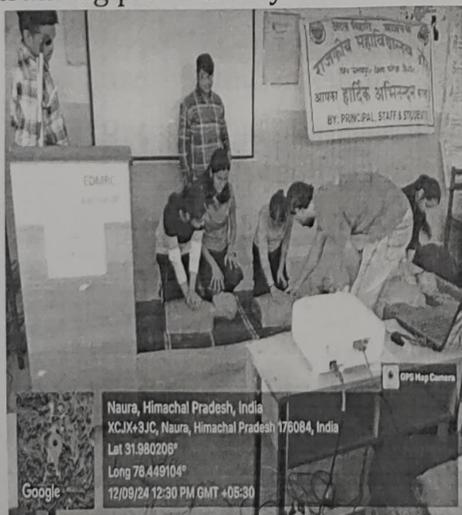

No. of Participants: 150

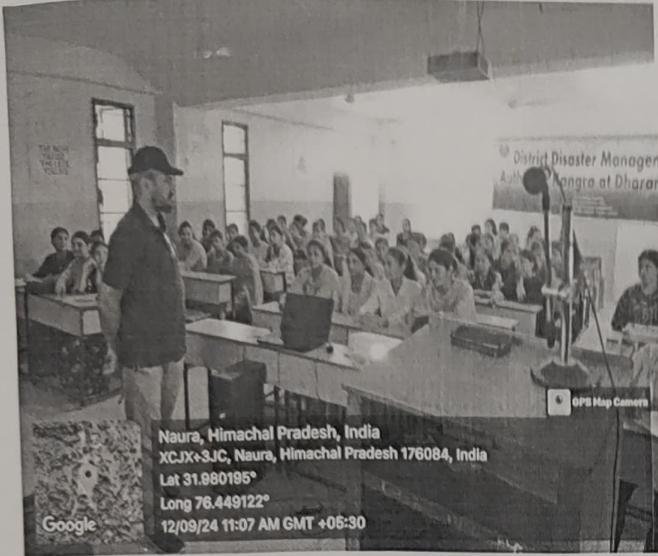

Report

Disaster Management Unit of the college in collaboration with Emergency and Disaster Management Resource Centre (EDMRC) Kangra HP, organised Two days Training program on 'Disaster Risk Reduction and Response Preparedness' in college campus on Sept. 12-13, 2024. The focus was on the following points:

1. Basic Fundamentals of Disaster Management and Youth Volunteering.
2. Emergency Medical First Aid including CPR.
3. Search and Rescue including collapsed structure, alternative stretcher making, evacuation and carrying.
4. Basic Fire Fighting techniques.

The purpose was to train the students regarding Disaster Risk Reduction and Response Preparedness. About 150 students of the college learned various ways of Disaster Risk Reduction and Response Preparedness. This training proved very informative and beneficial to the students.

Mock Drill on Fire Safety

Dated 05/02/2025

Timing -11.00 am

Venue- Panchayat Office Naura

Organizer - Disaster Management Unit

Participants-College students and public

Report

Disaster Management Unit of the college in collaboration with Fire Sub-station Dheera, Distt. Kangra HP organised mock drill on fire safety in the premises of Panchayat Office Naura on Feb. 05, 2025 for students in particular and public in general. In this event, Sh. Anil Kumar (Leading Fireman) along with supporting staff from Fire Sub-station Dheera was present as resource person, who talked about various types of fire incidents and how to deal with them. Live demo was also conducted with LPG cylinder. Moreover, Prof. Manoj and students from NSS unit of the college also attended this mock drill. Sh. Vikas Dhiman (Pradhan Naura Panchayat) along with general public were also present on this occasion. About 34 Disaster Management volunteer students of the college also participated in this awareness campaign, which was conducted under the supervision of Prof. Pankaj Katwal. This mock drill proved very informative and beneficial to all the stakeholders.

REPORT

Started on 2 January 2025

SUBJECT: Report on Successful Completion of In-House Training Program

We are pleased to submit this report on the recently concluded in-house training program for our 6th Semester Bachelor of Computer Applications (BCA) students, conducted by Excellence Institute. The training, focused on HTML, CSS, and Web Page Design, was successfully held from 2 January 2025 to 3 February 2025 within the departmental premises.

1. Objectives of the Training:

The primary objectives of this training program were

- * To provide students with a strong foundational understanding of web development technologies, specifically HTML and CSS.
- * To equip students with the practical skills required to design and develop visually appealing and responsive web pages.
- * To bridge the gap between theoretical knowledge and industry practicalities in front-end web development.
- * To enhance the employability of our students by providing them with sought-after skills in web design.

2. Training Methodology and Coverage

Excellence Institute employed a highly effective and interactive training methodology. The program structure included:

- * **Hands-on Sessions:** A significant emphasis was placed on practical exercises, allowing students to immediately apply learned concepts.
- * **Live Coding Demonstrations:** Trainers demonstrated coding techniques in real-time, providing clear examples.
- * **Project-Based Learning:** Students were assigned mini-projects and a final project, encouraging them to integrate various concepts.
- * **Web Page Design Principles**
 - * Layout and spacing
 - * Typography and color theory
 - * User experience (UX) and user interface (UI) considerations
 - * Introduction to basic design tools (if applicable, e.g., browser developer tools).

3. Outcomes and Benefits:

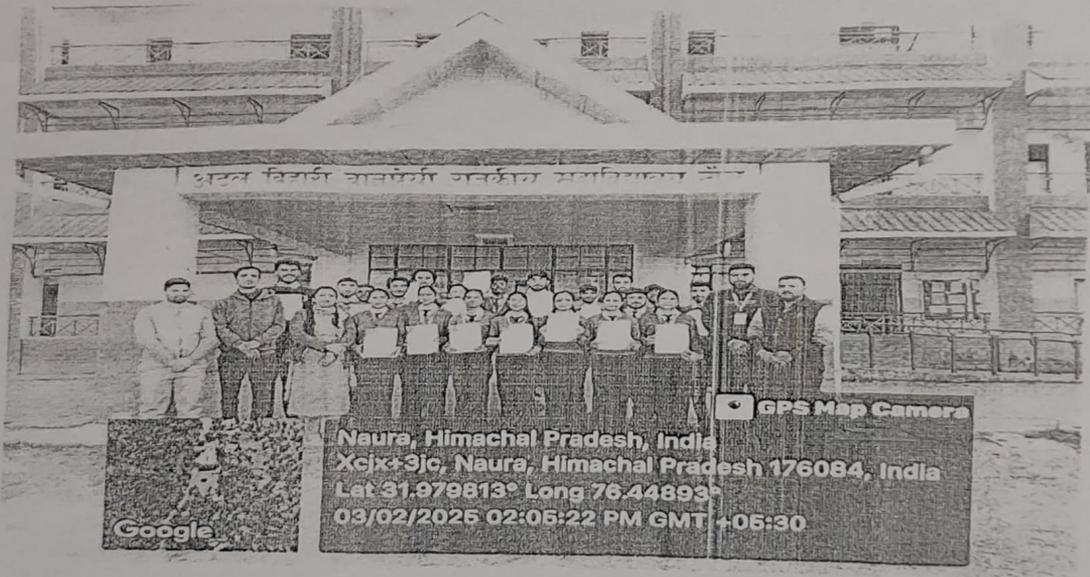

The training program has yielded significant positive outcomes.

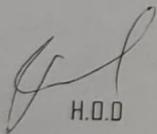

* **Enhanced Skillset:** Our 5th-semester students now possess a solid foundation in HTML, CSS, and web page design, enabling them to create functional and visually appealing websites.

* **Practical Exposure:** Students gained valuable hands-on experience, which is crucial for their future careers in web development.

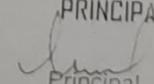

* **Increased Confidence:** The training has boosted student confidence in tackling web development projects independently.

* **Industry Relevance:** The skills acquired are directly relevant to current industry demands, making our students more competitive in the job market.
